

Canister Vacuums versus Uprights

Move Over Upright Vac – The Canister’s Taking Over! Canister Vac’s

- Versatile enough to use on carpet and hard surface flooring
- Stronger motor enhances suction power
- Enhanced filtration allows for better dust pick up and improved air quality
- Enhanced ergonomics & mobility
- High quality construction & durability
- Multifunctional handle
- More affordable than upright vacuums of similar quality level
- Lower sound level than upright vacuums

Upright Vac

- Mostly used on carpet
- Energy efficient
- Can be very powerful with twin motor system
- Typically more costly than similar level canister vacuum

3 Key Features to look for in a vacuum

1. CRI Approval
2. Sound Level dB(A) below 70
3. HEPA Availability
