## TASKI® Solutions For Operating Room Floors

TASKI® machines offer advanced cleaning technology, ergonomic design, ease of use and low maintenance.

These features increase efficiency, efficacy and return on investment. These machines are designed to help boost OR turnover. TASKI® Machines leave floors clean, fresh and dry, contributing to a satisfying environment of care.

### Key Advantages:

- Unlike other brands, TASKI® auto scrubbers eliminate “hidden” or uncleanable machine areas where pathogens linger, helping to reduce HAIs.
- Modular machine design means fewer parts for greater reliability and durability, plus less frequent and easier maintenance.
- TASKI® auto scrubbers extend hard surface floor care life and eliminate chemical stripping when used with Diversey floor finish, cleaners and maintainers.
- Patented squeegees and direct pickup leave floors cleaner and dryer with no trail mopping or baseboard cleaning.
- TASKI® machines deliver operator comfort and safety features. Superb maneuverability and braking reduce accidents in operation. Batteries are isolated away from liquid tanks, out of reach during normal operation.
- TASKI® IntelliFlow™ and IntelliTrail® technologies ensure proper cleaning while reducing water/chemical usage and labor costs and optimizing equipment utilization.

## TASKI® Solutions For Operating Room Floors

### TASKI® swingo® 855B

Patented brush and V-shaped squeegee deliver excellent soil removal and water pick-up on the floor. The 11-gallon tank volume and the patented IntelliFlow® system increase labor efficiency.

Easy to maneuver. Ideal for interim deep cleaning, stripping or deep scrub. 20-inch brush unit for efficient cleaning, especially along walls.

### TASKISUM™ Microfiber Cloths and Mops

This system of single-use microfiber cloths and matching, ergonomically-designed mops removes 99% of bacteria to help prevent cross contamination critical hygiene areas like operating rooms.

The TASKISUM™ system removes more dust and bacteria than cotton mops and eliminates the need for laundering.

### TASKI® swingo® 350B and 350E

Ultra-compact upright auto scrubbers with a low machine profile. Handle folds backwards for easy access under tables or racks. Maximum scrubbing action and innovative V-shaped squeegee deliver enhanced floor appearance, cleaning consistency and excellent drying results.

Outperforms manual cleaning, easy to use for maximum productivity. Operating room clean-up without moving around equipment.

### TASKI® swingo® 455B

These machines blend maneuverability and compact size with great working width and increased tank volume – the ideal combination for productivity in operating rooms.

These machines are designed for quick set-up and ergonomic operation. Intuitive controls and yellow maintenance points help reduce time required for operator training and maintenance.

The TASKI® patented V-shaped squeegee enables excellent water pick-up on the floor.

TASKI® machines are engineered for easy operation, reliability and low-maintenance.
